

Yakusheva Marina

Yakusheva Marina Sergiivna and her family lived in the city of Irpin, their house was completely destroyed. The family moved to their neighbors who provided them with a small shed to live in. With the funds provided by the program over the course of a year, Marina and her family rebuilt their house. The program enabled them to plan their future and start rebuilding their lost life.

The Husakovskiy Family

Good evening, our dear friends! We sincerely thank you from the bottom of our hearts for your significant help during these challenging times. You responded to our difficulties promptly and provided us with excellent financial support. Thanks to your assistance, we were able to address many of our family's needs, such as buying beds for our children, partially

renovating our house, acquiring a greenhouse, as well as purchasing necessary clothing, footwear, and groceries for our children. May God abundantly meet all your needs according to His riches!

The Tivodar Family

The Tivodar family of Olena and Oleksandr from Donetsk Oblast are extremely grateful for the support during these difficult times. As we mentioned before, we were forced to leave our homes due to the ongoing conflict in our native city, which is currently on the front line with constant fighting. We had to relocate to Zakarpattia and rent accommodation. Unfortunately, it has been over six months since the war started in Ukraine,

and we are already changing our place of residence for the third time. Our homes are unfit for living - completely devastated, and there is nowhere to return to.

Svitlana Voschatynska

Our family, the Voschatinska family, resides in Kyiv. We have 8 children, with the older ones now living separately. We wholeheartedly thank God and all of you for such significant support. It has been a special and unexpected blessing for us. During these difficult times, this support saves us from despair. We pray to the Lord to reward you all, everyone involved in this cause,

with His grace and abundant blessings!

The Troyan Family

Good afternoon!

This is Troyan family. We are very grateful for financial support from Dell Loy and Julia Loy, and to all the organizers of the project. In such difficult time for us we are expecting a baby, without job and our own accommodation. Earlier this month I had to lie in the hospital and at the end of the month I had to pass tests and to purchase all the necessary medication.

Through your financial support we could've afford all of this. May God bless you and supply all your needs. Thanks so much!

The Zubkov Family

We are extremely grateful to you, Del Loy, and his spouse for the assistance! We are the Zubkov family, with three children and expecting our fourth. The war began for us back in 2014, so our dad went to the front for the first time, he is a participant in the war and a military chaplain, serving as a priest on the front, providing support and delivering the hope of God's

Word to the soldiers. While we were hiding in shelters, our father evacuated people and delivered food and medicine to the hotspots. God protects us, but since February 24, we lost our business and income. We had to move to Bedevlyu, where we met you!

Salina Tatyana

My name is Salina Tetiana, and I live in Mykolaiv. I have been disabled since childhood and I am deaf and mute. Life is already very difficult for me, but the war has made it terrifying. I can't hear the sirens, and I only start running when I see the flashes. Many buildings on my street have been destroyed. I am very afraid that I won't hear and will perish from a rocket. My pension is very small. . I spend the entire pension on medication because

I have a chronic illness. I am so grateful to you for your help and support. It allows me to help my daughter and granddaughter. I was able to survive the winter. I humbly request that you do not leave me without your support. Thank you very, very much!

The Skorobogach Family

The war in Ukraine for our family began in 2014. Russian soldiers, together with separatists, violated the sovereignty of my country and occupied part of the territory of Donbass, including my city of Mariupol. On June 14, my father went to the market for groceries on a typical Saturday afternoon.

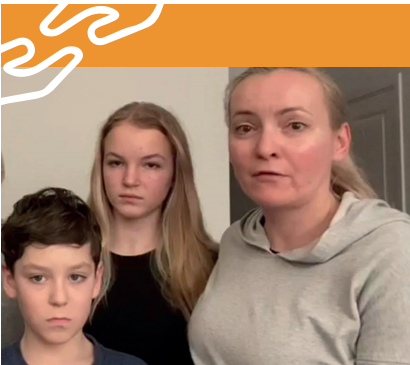

When he was crossing the bridge into the city center, he got into a shootout between the border guards of Ukraine and the separatists. His death is over. He pastored one of the largest Protestant churches in the city. At that moment, my family's life was turned upside down.

The Yatsenko Family

Our family lived in the village of Peremoha in Brovary district. When the rashysts were coming closer, we were told to evacuate. After the liberation of our village, we returned and were shocked by what we saw. The only consolation for us is that we are still alive and our children are safe. Your assistance is a miracle in our lives. We cannot express enough gratitude, and it brings tears to our eyes to thank you for such support.

Galyna Daniel

Galyna Daniel, 46 years old, from Luhansk, Ukraine. Dear Dell & Julia Loy and David Leavitt, let me express our sincere gratitude for your recent financial contribution to support us in our attempts to survive the hardships caused by the war in Ukraine - thanks to you it became possible! We already lost our houses 8 years ago due to civil unrest in the eastern part of Ukraine.

At that time, my little son was only 3 months old, he was born in March 2014, and in July we had to flee from our home town. We left everything in our house as if we went out for a moment - toys, children's books, little beds, and our other precious belongings - everything has been waiting for us since then.

Valery Sklyarevsky

Hello. My name is Valeriy Sklyarevskiy, and I am from Mariupol. The war started swiftly in my country, and we didn't have time to leave. There were constant bombings. I spent two months in the basement, enduring the cold, hunger, and burying the dead. We drank rainwater. In May, after spending two months in the basement of my own house and then the neighboring house, I managed to escape from my hometown and now I am in the capital city.

My house was burned down by Russian military forces, and my beloved dogs were shot. I have lost everything except for the miraculously surviving car, which barely got me to Kyiv. I am a pensioner and in desperate need of means to sustain myself.

Valentina Dolgova

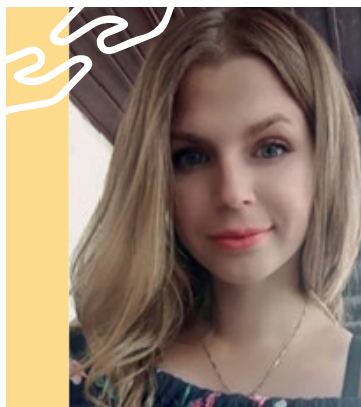

We are residents of Borodyanka, both 70 years old. I am Valentina Vasilivna, and my husband is Vitaliy Oleksiiovich. Our house was destroyed by a fascist airstrike. We were left homeless, but thanks to your support, we are able to survive. My husband was losing his eyesight due to the nerve-wracking stress, but with your assistance, we were able to undergo surgery, and now his vision has greatly improved. Not even six months had passed when he started

experiencing severe abdominal pain. We called for an ambulance, and he was taken to the intensive care unit as his ulcer had burst. An emergency surgery was performed. We are so grateful for your support; without you, it would have been a very tragic ending. In the spring, we took up gardening, plowed the land with a tractor, and planted crops.

The Yermak Family

Hello! We are the Yermak family from the Zhytomyr region, a small but picturesque town called Mlyn in the Korosten district. On February 24, 2022, our morning began with a horrifying news: the war had started! It was unimaginable, but the rockets flying over our town towards Kyiv were a terrifying proof. We felt the paralyzing fear. There was no panic, only a little child in our arms who was just 9 months old at the time. A mother's heart was torn apart,

searching for the right decision. We needed to leave for a safe place. Since our family didn't have a car, we rented transportation. We took only the necessary warm clothes and documents. We headed west, to an unknown destination, just to be safe. We traveled under intense shelling, passing through checkpoints.

Volodymyr Bovsunovsky

Hello. My name is Volodymyr. My wife and I live in the village of Bilotserkivka, near Kyiv. Our morning on February 24 started at 6 o'clock. We woke up to the sounds of explosions. Realizing that the war had begun, we called our children. Our daughter, her husband, and their two children (six and one and a half years old) live in Kyiv on the 16th floor. The nearest shelter was far away, and with two children and non-functioning elevators, it was inaccessible.

Our son-in-law is a rescuer, and he was called to duty an hour before that, so our daughter was left alone at home with the children. Helicopters flew over us all day, and it was very loud... It was only at night that we managed to go to Kyiv and bring our daughter and grandchildren to our place. We thought it would be safer outside the city.

Kozhukh Svitlana

On February 24, explosions were already happening - my husband, our little daughter who was 11 months old, and I were fleeing. We didn't have our own car, but thankfully, we were given a ride ☹️ It was scary because we were traveling in the dark, hearing something flying low above us and smelling gunpowder, but we couldn't see what it was. We were running towards the border with Romania, in case there was a need to cross it on foot.

For over two months, we lived in a village in Zakarpattia with strangers, where our daughter celebrated her first birthday. Unfortunately, I have a chronic condition - gallstone disease. I have 15 stones in my gallbladder, and my condition worsened significantly from that same day - February 24. Every week, and then even more frequently, I experienced gallstone attacks.

Rynat Pisarev

This will be a lifelong memory of February 14, 2022. We were at a photoshoot... happy, joyful, and very cheerful. And for us, it's a memory of how God protected us from February 24 to March 14. In 19 days, we learned a lot about how to survive in Mariupol under these conditions. Hiding from shelling, procuring food and essentials for 12 family members,

eating sparingly when four children want something more or something tasty... explaining that we can't afford certain things at the moment. The joy of communication when you meet brothers and sisters from the church, friends, relatives, acquaintances, sharing information because there is no phone connection, or if there is, only in certain places.

The Salienko Family

Dear Del Lloyd and Julia!

Our Salienko family - myself, my husband Ivan, and our daughter Ulyanka - want to express our gratitude to you for your assistance. During these difficult times of war, it is incredibly important to us. Thanks to your help, we can take our child to the swimming pool, provide her with rehabilitation, and buy groceries. Since my husband is a volunteer, your support enables us to help others as well.

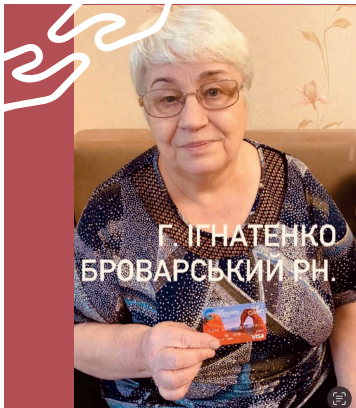

In these times of war, when many difficulties and problems have arisen, your financial assistance is crucial, appropriate, and needed. Thank you!

The Serhiyan Family

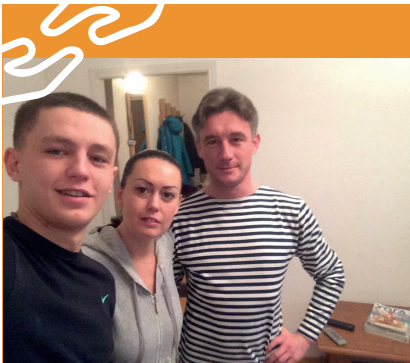

I'm Valentina Serhiyan residing in the village of Vishenki with my two children. My husband, Ruslan, went to defend our homeland. He served in a reconnaissance unit. Ruslan was killed while performing a combat mission on March 15, 2022. We are extremely grateful to you for the financial support during this difficult time. This assistance was much needed for us during these challenging circumstances. Thank you!

Galina Ignatenko

I, Galina Ignatenko, survived the occupation in Brovary district, village Ploske. As a result of the Russian aggression bombing, I lost vision in one eye. My health has been severely affected after enduring such horror. I require a significant amount of money for medications. My pension is very small. Your assistance is vital to me. Thank you sincerely for your help."

Bohachova Asya

Dear American Friends!!!

From the bottom of our hearts, we thank you from our entire family for your help and support at such a difficult time for Ukraine! Here is my mother, she is 77 years old. She lost her home, and I lost the place where I was born and spent my childhood. My husband took my mother with a broken leg from Mariupol during

the bombing. The house was destroyed to the ground already during the occupation! Mom became homeless at 77.

At the beginning of the war, my husband and I found ourselves under shelling, in the vicinity of Irpin.

Gennady Kalinichenko

Gennadiy Kalinichenko, a second-degree disabled person, was unable to reach shelter during the rocket shelling in Darnytskyi district, Kyiv. Debris from the explosions hit my arm, leg, and head, and I miraculously survived but sustained injuries requiring medical treatment. As I fell during the shelling, the impact was primarily on my cranial structure. Thank you for your assistance.

Lyudmila Yavorska

Our family from Volnovakha in Donetsk region. The war has been raging near our borders for a long time. When the war began, we evacuated to Kyiv region. I am disabled and have two children, and my husband is also disabled. We are in great need of assistance. Your help is the protection of our family.

Kolisnyk Serhii

Sergiy Kolisnyk, a displaced person from Donetsk region, was injured and lost his hearing during the heavy shelling of the city. He suffered greatly from the Russian aggression. He expresses his gratitude to everyone involved in this wonderful program.

Volynets Svitlana

My name is Svitlana Viktorivna Volynets, born on February 26, 1965, in Kyiv. During the full-scale war, my husband and I took care of children's homes and rehabilitation centers "Sesenkiv" in Brovary district. On February 24, 2022, our lives changed forever. It seemed to me then that this was not real, but some kind of dream and I could not wake up.

With our previous experience of 10 years in charity and volunteering work with children, we immediately joined as volunteers. When the full-scale armed aggression by the Russian Federation against Ukraine began, in a state of martial law, our team started evacuating children from the occupied territory, including the children's home where we served. Russian tanks entered the Brovary district. . People lived under occupation for a month, enduring constant tank shelling and rocket bombardment. It was sheer horror, as described by eyewitnesses. We, as volunteers, entered the de-occupied villages after a month, on the second day following the defeat of the invaders.

Rimma Schukailo

I am 76 years old, and I am from Mariupol. My house burned down completely. It's terrifying to become homeless at 76. During the bombings and street battles, my daughter's husband managed to evacuate me with a broken leg from an apartment that had no electricity, no heating, and not even windows. In Kyiv, I have my daughter. They live in a rented place, and before the war started, they bought a small apartment in Bucha and

were renovating it, hoping to move into their own home in the spring. But then the war came! After the occupiers left Bucha, there was no livable space left in the apartment!

The Melnychenko Family

We, the Melnychenko family, live in the village of Chernobaivka near Kherson. We lived under occupation for 8 months as we had no opportunity to leave. We experienced shelling with casualties and destruction. However, we believed in the imminent liberation. It has been two months since we were liberated, but the shelling hasn't stopped, only intensified,

resulting in more casualties and destruction. In such difficult conditions, the help of acquaintances, and especially unfamiliar people, helps us survive. Humanitarian aid arrives constantly. Your assistance has been a miracle for us! We never thought that there are people who feel the pain of others as their own. We are immensely grateful to you. Thanks to you!

Evgena Kaminska

I am a pensioner. A few years ago, my daughter passed away, and her son was left in my care. And then one trial followed another. I ended up in the hospital and had surgery. While I was in the hospital, the shed with livestock burned down. My husband's heart stopped due to stress. He passed away. A few months later, the war began. I was in despair. But then Maria Vashchenko called me and told me about the program.

This financial support was like a blessing from above. We are infinitely grateful to you, Del Loy and Julia, for your kindness and generosity. I pray for you and your family endlessly.

The Zabolotnykh Family

We are the Zabolotnykh family from the city of Mariupol. I have a son who is 4 years old and my niece of 12 years old. We left and took her from the occupied territory. When we were fleeing from Mariupol, I was nine months pregnant. Before we could leave, we lived in basements, practically without water and food. Leaving was very difficult, almost impossible, as the city was

constantly shelled. Our home was destroyed, and we miraculously survived. We have nowhere to live, and currently, we are staying in Kyiv. Our elderly parents and my niece also left with us. Your program is a tremendous blessing for our entire family. We are immensely grateful to you.

The Holub Family

When the war started, I was pregnant in the final months. It was horrifying not being able to run to a bomb shelter while my family stayed close by. Our second daughter was born during the war. We received your financial assistance just before her birth. I am so grateful to you for being there for us during this terrifying period when we were being bombed and my husband lost his job. Our children were clothed and fed, and we had the means to

pay for housing. We are very thankful that you were by our side, thinking of us and taking care of us. With respect, the Golub family.

The Velbovets Family

Our family is grateful to Sister Maria, Dell Loy, Yulia, David Leavit, and the entire team of "Zori Miloserdia" for the assistance provided. We are two disabled pensioners with limited abilities, living on a pension. Thanks to your help, we are able to sustain ourselves and financially survive

during these challenging times. It helps us obtain necessary medications, food, and clothing. . My husband, Mykola, recently had a heart attack. The doctors saved him, performed surgery, and placed three stents in his blood vessels. He is now undergoing rehabilitation under medical supervision. Our family's financial resources are limited. We faced financial difficulties even before the war, and now, during the war, it has become even more difficult.

The Klymenko Family

A mother of multiple children, raising three boys on her own in the city of Maryinka, Donetsk Oblast. Their story is not an easy one, as in 2015, their house was hit by a projectile for the first time. Over the course of seven years, the house was gradually rebuilt, and in December of their 21st year, they returned home, lived there for two months, and then the war resumed. "It was very scary; the bombings started heavily during the day, and the

children were at school." The next morning, the entire country began to be shelled, so she took the children and went to a village near Maryinka, where they stayed for a month until it became unbearable. "The whole house was shaking, and the surrounding houses were on fire."

Senyk Tamara

Tamara Senyk is an 84-year-old pensioner who is seriously ill. She has been bedridden for 5 years. When the war started, her relatives with children had to leave. However, thanks to your assistance, two wonderful women take care of her, and she has the means for medication and food. During the winter, when there was no heating, a generator was purchased with your support. This allowed her to have warmth and water in her home.

Your help is a heavenly miracle that has blessed this elderly woman. She is grateful to God for you. May God bless you for your love for people and care.

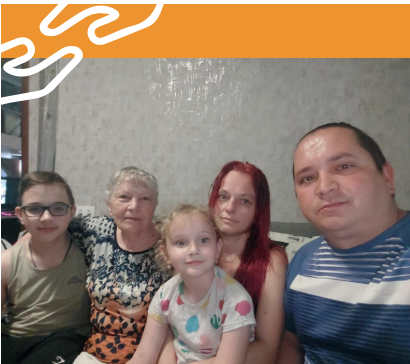

The Baklan Family

We are a young family from Pavlohrad. We got married two years ago and were planning our happy life together. We started our small business in Kyiv, invested our savings, and had plans for its growth. However, our dream was shattered by the war. We brought our parents and elderly grandmother from Pavlohrad. Currently, Pavlohrad is heavily destroyed. Although our little house was cramped, it was still a safe haven.

Thanks to you, our entire family had food and warmth. We are grateful that you took care of us.

The Heba Family

Hello! The Heba family from the city of Kherson here. We managed to leave before the occupation of the city. However, my mother endured all the horrors of the Russian occupation. Now we have been able to bring her to be with us. Your program supported us during the most difficult moments of our lives. Despite losing my job, we had the means to evacuate our family to a

safe place. We are immensely grateful to you for the assistance we received. We had to endure many hardships over the past year: war, job loss, and a forced move to an unfamiliar city. Therefore, your help was a godsend for our family during these challenging times. May the Lord protect you and inspire you to continue doing good deeds.

Yury Kulbida's Family

We live in Brovary. The war started from our city because there were military objects. It was terrifying to be bombed. Those were dreadful times. We lost everything immediately. In our despair, we learned about the program.

We want to express incredible words of gratitude for such an amazing program. It was accurate and timely. The assistance provided supported us during a very difficult time.

It was a bright ray of light in the darkest of times for all of us. Thanks to the program, the unity of our family was preserved and sustained. We had resources for shelter and food. We continue to work and strive for progress towards victory.

The Trenogin Family

Hello! We are the Trenogin family from the city of Kherson. Currently, we are in Brovary. We are extremely grateful for the support from the Dell Loy family! Their assistance has been of great help to our family during this difficult time of war when we lost our jobs, having a little child to take care of, and the prices for everything skyrocketed. Your help also played a significant role in helping us survive the harsh winter without electricity and heat,

amidst constant air raid alarms. It uplifted us, gave us strength to live and hope. May God bless you and everyone involved! Thank you so much!

**THE DELL LOY
HANSEN FAMILY
FOUNDATION**

The Nedzelnytskyi Family

We sincerely thank the donors of the Zorya Myloserdia Foundation, Dell Loy, and Julia for the material and moral support provided. We are pensioners and have a sick son. It is very difficult to face such trials at our age. This assistance helped us get through the tough times of financial strain and supported the purchase of necessary equipment for Dmitry Kostyantynovich and Natalia Nedzelnytska in managing the household, maintaining our well-being,

and the well-being of our son. And for the author of these lines (to a certain extent), Andriy Nedzelnytskyi, it helped not to forget the creative direction, honestly speaking, as a historian of the city, influenced by the state of war on its "face." We will never forget this sincere help.

The Yaremenko Family

War has destroyed my and my family life. I was studying at the university and planning to get married. The first months were filled with confusion and despair. But then I realized that I needed to help people. In the summer of 2022, I decided to join the Zorya Myloserdia Foundation as a volunteer. It was a challenging time for Ukraine due to the war with Russia, and my goal was to assist people who suffered from this conflict.

The Zorya Myloserdia Foundation became my pillar of support when winter came and Russian shelling led to power outages. At a time when many people were struggling with cold and lack of light, I saw how crucial my work was.

Olena Zraychenko

Our family used to live in Kherson. We experienced the horrors of war with our young children. Our house was damaged, and we were forced to leave. Thanks to your financial support, we were able to move to Kyiv and find and rent a place to live. Currently, we are unemployed, but we hope that everything will settle out. We are now trying to adapt to the new place. But the most important thing is that we managed to evacuate

our children from Kherson and be together because of you. May God bless you. Our family extends immense gratitude to you.

The Slipak Family

Our large family faced with the war in Kyiv. During bombings, we run with our children to the bomb shelter. Every day, we prayed for it to stop. Our father started evacuating people to the Polish border. Each day brought new trials, but we, along with our children, decided to help the elderly. We bought bread, food supplies, and collected funds for the military and much more. Serving others somehow helped us cope with the fear and despair

that came from the events. When the bombings became constant, my husband took us to a safe place in Lutsk. Each time, we anxiously awaited his return from Poland. Thanks to you, we were able to endure this period. May God bless your family for the mercy you showed towards Ukrainian people.

Voron Maksym

My name is Voron Maksym Valeriiovych, born on May 22, 1977. Since the beginning of the full-scale invasion, I have been involved in volunteering. Starting from February 24, 2022, I have been evacuating families with children from Kyiv to Western Ukraine using my minibus. In the opposite direction, I have been delivering humanitarian aid (food, hygiene supplies, clothing, and shoes for refugees, food for animal shelters). Prior to the war, I worked

as a film and television operator. However, with the onset of the full-scale invasion, the projects I was working on were shut down, leaving me unemployed. In order to achieve victory over the Russian aggressor, I had to retrain myself as a driver.

Dmytro Vivchariuk

My name is Dmytro Vivcharyuk! I am a Ukrainian theater and film actor. Since February 24, 2022, my life, like the lives of many Ukrainians, has changed. We woke up at 5:06 in the morning to the noise and explosions. We live near Zhuliany Airport. I have two children and a wife. My eldest son has autism. On that unusual morning of February 24, he reacted very nervously, and everyone was scared. Chaos, panic, explosions, horrifying news...

I made the decision to evacuate my family to Western Ukraine. Later, they went to Germany because I wasn't sure it was safe to stay in Ukraine. After I put my family on the bus, I started rescuing and helping whoever I could. I transported people, children, animals to Western Ukraine or to the border with neighboring countries.

Lyudmyla Kovalenko

Lyudmyla Stepanivna Kovalenko and her daughter Iryna. Before the war, we lost our support and strength - my husband and father. A terrible illness took him away from us. Then a horrible war began. We live in the city of Brovary. During the full-scale invasion of the occupiers, we were among the first to hear the consequences of the war when our city was hit by the first air attacks. I am a pensioner and have one daughter.

She lost her job, and we were left with nothing. Times are tough, but I am confident that with acts of kindness, things will get better in the future. Thanks to caring individuals, we are still managing to stay afloat.

The Grechko Family

My name is Yaroslav Hrechko, and I live in the city of Vorzel. We experienced seven circles of hell during the events that took place in our city. We endured occupation. We fought against the enemy and served as a sabotage unit to calibrate the firepower of the Ukrainian Armed Forces against the enemy. My life was on the verge of death, but fate smiled upon me, and I can still breathe the free air of our Ukrainian land. I am immensely grateful to

all those who are not indifferent and support those who have experienced extremely challenging conditions during these difficult times. I wholeheartedly thank the "Zoria Myloserdia" Foundation, represented by Maria Vashchenko and Dell Loy, for your financial support and the opportunity to be a volunteer and help others.

The Volkovsky Family

I lived with my wife in the Kyiv region, in the city of Boryspil. The war started with the bombing of Boryspil Airport. We woke up as our house shook from the explosion. The war had begun. We had a farm with many chickens and chicks. At first, we thought it would all end soon, that the politicians would somehow reach an agreement. But with each passing day, things became scarier. I drove my wife to Poland. Then I returned and started

evacuating acquaintances, friends, and even strangers. . I have a disability, and my pension is small. The fuel prices doubled immediately. But thanks to your help, I was able to evacuate women and children from hell for several months, saving them from the war. I couldn't have done it without you.

The Shiyan Family

My husband and I lived in the city of Mariupol. We loved our beautiful city, but we were forced to leave, and at the moment, we are living in the Chernivtsi region, Kelmenetsky district. Both my husband and I are pensioners with minimal pensions, and it's very difficult for us during the war. We have lost everything. We took only the most essential things with us. Now we are trying to start our lives anew in this new place.

We are extremely grateful for your help. It's simply a miracle! We will always remember you.

The Sushko Family

Dear Dell Loy and Julia, and your incredible team, I want to personally thank you and say, without exaggeration, you are saving my family from hunger, cold, and children's illnesses. Thanks to your support, I knew that my children would have something to eat and receive proper medical care, and they would be warm. You are our angels who didn't let us perish and lose hope. I bow down to you for your kindness and big heart!

I couldn't even imagine that people who don't know us would support us like this. I am a mother on maternity leave with two little children, , and I currently don't have the opportunity to earn money. The children get sick so often that I feel exhausted and helpless.

Iryna Reva's Family

Good day! I am a mother of four children, including one child with disabilities. We live in the city of Oleksandriya in Kirovohrad Oblast. We have found ourselves in difficult life circumstances, and I am unable to work due to taking care of my child. We are left without money for the treatment of my youngest son, food, hygiene products, and medication.

This accursed war has prevented me from leaving to protect my children. I am extremely grateful for your help and support! In our difficult time, when more and more people need care and financial assistance, it becomes difficult to find people who are able to perceive other people's problems as their own, and how wonderful that such people still exist.

Gutareva Tamara

Before the start of the war, her husband, their son Dmitry, who was only 4 years old at the time, and Tamara moved to the city of Vasylivka. They started renovating their house gradually. On the eve of February 22, 2022, she took a pregnancy test and found out she was pregnant. Her husband insisted that she go to the city of Zaporizhia to register at the hospital (at that time, her husband worked as a driver and he commuted from Zaporizhia to

Vasylivka to deliver bread). On the eve of February 24, she went to Vasylivka, and in the morning, she learned that the war had broken out. Her mother and stepfather convinced her to leave the city for the safety of the children, and on the 26th, she had to leave her loved ones and depart.

Oksana Ponomareva

From February 24, 2022, until May 30, 2022, we lived with our family in the occupied city of Oleshky in the Kherson region, and we made the decision to leave for the controlled territory because it was very frightening for the children. We attempted to leave twice, but there were battles everywhere. On the third attempt, we left through Vasylivka in the Zaporizhia region and arrived in Zaporizhia at night. We spent the night in a kindergarten and

then headed to the city of Mykolaiv. However, it was unsafe to stay there as the city was under shelling, so we traveled to Kyiv, where our relative aunt lives. She provided our family with a free one-bedroom apartment, which we later upgraded to a two-bedroom apartment that we rent with our own funds.

The Khortovych and Sergiyeva Families

We are a large family residing in the village of Sloboda in the Chernihiv district. Russian forces were stationed in our village, and our houses have been destroyed. We didn't have the financial means to relocate anywhere. Without your assistance, we are unable to rebuild our homes. We are extremely grateful to you for your support during this challenging time. We are able to provide food and necessary supplies for our children, but

we kindly request help in restoring our buildings. We sincerely appreciate your support.

Yury Kharkovets

Our "House of Mercy" is located in the village of Boyarka, and before the war, we took care of the homeless, helping them start a new life. The Russian troops stopped right before our village, which saved us. However, the war brought new painful problems to our center. People from the combat zone started being brought to our center—families whose lives were destroyed

by the war and who lacked the means to rent accommodation. Our center has many needs. We are grateful to "Zoria Miloserdia" represented by Maria Vashchenko and the sponsors of the Del Loy and Julia Henson program for supporting the affected people. With these funds, we provide for the needs of several families. We are immensely grateful to you for your help.

The Shcherbyna Family

Our village was occupied by the rashits. There were many tanks in the village, and fierce battles were fought. Many of our boys were killed by the Russians. We don't want to remember what we went through. We're just thankful to God that we came out of that hell alive. Almost half of the village was destroyed. There wasn't a single family that didn't suffer. I, too, was not spared from tragedy. All my belongings, my house, were burned and ruined.

I understand that now I won't have the strength or time to rebuild what I have built throughout my life. I am grateful to you for caring about us. Thank you for thinking of us. May the Lord reward you for your good deeds. If possible, please help me rebuild my house. Thank you for everything.

Lesia Ovdienko

We live in Kozarovychi, Bucha area. We were in occupation. After deoccupation we left and then came back home, it was ruined much. It needs to be repaired. We have 3 kids. My husband could not find any work for a long while. We are in need.

I needed that financial help because my parents lost their jobs due to the war in Ukraine. We didn't have enough money to provide for all family members.

Yaroslava Petryna

I need this help because I have problems with my health and analysis is very expensive in clinics. Only my mum works and receives a salary, but it's not enough for 4 people.

Anastasiia Zubets

Now we have problems with money, due to the fact that my parents lost their jobs and house. We are from Mariupol.

Iryna Sereda

Hi! My name is Iryna Sereda. On March 6th at 1:00 am, my house has been destroyed by a russian missile Uragan. At that moment me, my husband and my father were peacefully sleeping inside the house.

My both legs are injured. I am ready to make efforts and do everything depending on me to return to help our army. I want to be useful, want to feel alive. And now I cannot, not being able to move without help

Kostiantyn Shevchenko

I left the battle field thinking that it was nothing, just an arm. Now I know that my understanding of the situation was so naif. It is a painful and quite serious injury, that does not let me sleep at night without pills.

Anton Mukhin

My arm and leg are wounded. Some pieces of metal are still inside. I hope it is all over soon. And I can start rehabilitation to feel healthy. Will really appreciate if you support me now, when I am weak.

Svitlana Popova

I am a teacher. We were both teaching before the war. First, we could not believe that Russians could really attack civilians. But then the missile ruined our house. We were next to it, thanks God. Then the tank arrived and tried to kill us trying to take some things from the burning house.

Serhiy Prokopiv

I was shot on February, 25. Only a week ago my doctors decided I can live at home. Having serious injuries of the abdomen I cannot earn for living. I have a family and a little daughter. I would be happy if I did not feel guilty that much for not being able to buy everything my beloved ladies need.

Fedir Haletko

I have several months ahead to recover. Walking is so painful. After a range of surgeries I still need treatment. Rehabilitation and medicines are not free for people defending the country. Perhaps, not enough money and the state cannot take care of people like me.

Good afternoon, I'm Mylenkyi Serhii Oleksandrovych, I live in the village of Kolychivka with my family, my wife and two minor children. We bought a house a year before the war, on March 7, 2022, our house was destroyed by Russian shells, and so we were left without a home. We are rebuilding as best we can, thanks to volunteers.

The Kostyuchenko Family

The Kostyuchenko family house, a family of 6 people, completely burned down, now they live with relatives. There are 2 disabled people in the family, an elderly sedentary grandmother. They dream to fulfill, they will be grateful for any help.

The Slyusar Family

We, the Slyusar family, disabled pensioners, were under occupation in our native town of Irpin, left homeless as a result of Russian aggression. We are very grateful for the financial assistance we receive from you. Thank you for supporting us in difficult times for Ukraine and our family.

Maltseva Olena

Hello. My name is Alexander, and my wife's name is Olena. We have 10 children. We are refugees from the Gornostaevka village in the Kherson region. We used to live at 45 Vasiliy Khodos Street. On September 6th, I was taken captive by the Russians and held until September 22nd. They accused me of being a minister of the Evangelical Baptist Church, claiming that it is prohibited on Russian territory. We were forced to leave with our family to the

territory controlled by Ukraine. Currently, we are in Kyiv. The older children are working, while my wife, three underage children (aged 9, 11, and 14), and I are trying to make ends meet. The Russians took away our cars and our home. We would be grateful for any assistance you can provide.

The Chernovol Family

Hello! We are the Chernovol family, and we sincerely and wholeheartedly want to thank Del Loy and Julia for their kindness and care for our people from Ukraine. Thanks to your financial support, our family is able to pay for our eldest son's education and buy everything necessary for our children. Also, thanks to you, we are able to afford the rent for the apartment we live in

since we don't have our own. We pray for you! May God bless you and everyone who extends help to our people!

The Dolgov Family

We are the Dolgov family. During the war, my mother suffered a stroke and we had to leave our home in Bucha. We paid for her treatment ourselves and have no funds left. We returned to Bucha later and received help through the card program. We are grateful for the financial relief it provided, allowing us to buy food, medicine, and fix our damaged window and doors.

We are thankful to everyone involved in the program and to the kind Lord for His mercy. We save money because we don't know what the future holds. We want to buy a generator and are grateful for every penny. Thank you to the people from America for this assistance. God bless you!

The Koznodi Family

We are the Koznodi family, grateful for your support. Our family of six, including three children and an orphan under our care, is facing financial difficulties. I am unable to work due to health issues, and our state aid is insufficient. Your assistance has helped us with food, medicine, warm clothing, and utility bills. We have been without electricity for five days and rely on the kindness of others to charge our phones.

With winter approaching, we fear for our future and struggle to provide our grandmother's medical needs. We implore all sponsors to continue this vital assistance, as it is our lifeline. We deeply appreciate your help and hope the project will continue.

My boyfriend (Dmytro Nasinnykh) and his dad (Aleksandr Nasinnykh) and I met with Dell Loy Hansen, his wife Julie and David and Chelom Leavitt on May 13, 2022 in Kosiv. We lived at the school then, and we came there from Chernihiv. Over the year, many plans have changed. My boyfriend and I live in Poland, we had to work together, and it was like that until my dad died,

when I had to go from Ukraine back to Poland. So I was fired and still can't find a job. So, thanks to the help, we were able to adapt in Poland, and now we live on this help. The guy works for Ukraine, so the salary does not match what is needed to live here. So we sincerely thank you for such incredible support!

The Netkachov Family

Thank you Dell Loy and Juliya for your great help! In Mariupol we lost everything, even our husband's father, the russists deprived us of a large part of our lives. Today you are our help and support! we are a family from Mariupol, we got out of hell on March 25. Having lived in the basements for about a month, eating once a day food that was cooked on fires, we collected water from the snow, the Russian invaders shot down our house, a mine

flew under the feet of my husband's father eventually he died. So we had an old mother, a disabled person of the second group, in our arms. The eldest daughter entered the university, the youngest son went to the first grade. Now our life is completely destroyed, we have lost everything.
