

# **THE** DELL LOY **HANSEN FAMILY** FOUNDATION

To our Utah Community,

As a family, our work efforts have been richly blessed, and we have earned beyond our needs, and we are keenly aware of the unmet needs of others in our community. Our hearts cannot ignore the compassion of those in need in our community. Those in need in our community are entitled to better outcomes in their lives. We seek to share our excess with the genuinely humble and hope to have the vision to find and serve them as the story of the Good Samaritan teaches.

We seek to differentiate ourselves from other foundations by being attuned to the immediate suffering of the individual, as opposed to just giving to organizations. Knowing that the resources we give reach individual teachers, students, doctors with ideas, organizational employees that need economic support, would be our primary mission. We are seeking out individuals.

Our family seeks opportunities to find — and meet — unmet needs that fly below the radar.

Sincerely,

A handwritten signature in black ink, appearing to read 'Dell Loy Hansen', with a long horizontal flourish extending to the right.
